BE PUT TO DEATH! There may be reasons of policy or expe-diency for commuting the sentence. But we see nothing in the nature of the crime, or the circumstances attending its con n, unless Brown was insune, to call for

clemency in the case.

On the contrary, in the deed, the object, the long, cool, deliberate, milignant, murderous calculation and preparation with which was planned, the bloodthirstiness with which they murdered the first negro who fell into their hands, the pertinacity with which they held out when their inhuman designs were buffled, the slaughter of unof fending citizens, and the avowed purpose to ravage the country and usurp the government, there is every element that goes to constitute the highest grime known to the laws of God and man. It is a moral wonder laws of God and man. It is a moral wonder that any one, in his senses, who believes that a murderer ought to be put to death, should doubt that these murderers deserve to die. In every intelligent Christian mind there is a sense of right and wrong, that for a moment may be obscured by sympathy with suffering, so that it fails to utter their correctly when it speaks, but the sober judgment of the Christian world responds to the sentence which God and man line prenounced upon the murder: "Whose sheddeth man's blood by man shall his blood be shed."

There are intereste most awful to be contemplated when we decide to extend sympathy and forgiveness to such crimes as this? Where is law, where is safety, where is virtue, where is the distinction between right and wrong, where the difference between reward and punishment, if we are to part don these men? I is there any crime known to the laws, or any circumstances under which crime can be committed, or any any

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, emong which are Neuralgia, Blaumansiam, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Paintul Affection of the Spiceo, Hysteries, Pain in the Bowels, Colle, Parnly is, and Deraogement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become percollent. This "Curni" expols the poison from the blood, and consequently cures them all allike.
